

School Magazine 2007-2008

Collection of memories of the DGS campus

There will be a section of the school magazine on the DGS campus, and the editorial committee is now collecting memories of different spots or buildings of the campus, in the form of a piece of writing.

Teachers and students are invited to contribute a few sentences on any location(s) of your choice. *Content may include your feelings about the location, or memories of events that happened there.* Please refer to the list posted for suggestions of locations, but any other spots in the campus are also welcomed.

Please also include your name, class, and any other information relevant to your location. For example, if you are writing about the Hall and you are a musician, please state which musical group you belong to.

Please send your writings through email to **dgs.quest.08@gmail.com** latest by **28th July, 2008** (Monday).

Please contact the editors at the above email, or Wun Tsz Sum or Mary Jean Chan of L6A if you have any questions.

Thank you in advance for your contributions.

Suggested List of Locations on Campus

1. Junior School

- middle garden
